

RCN Neuroscience Forum Annual Report 2024

Introduction:

The RCN Neuroscience Forum seeks to promote best practice in all aspects of neuroscience care across a range of settings from community to critical care environments, including all neurological conditions and disorders. We develop educational and other materials for nurses, health care support workers and allied health professionals to improve the quality of compassionate patient care, influencing changes in neuroscience care that will benefit both patients and nurses. The forum aims to engage members who work within neurosciences to support their activities of practice development.

Membership of the forum: Summary on the forum membership 2024:

Count	Forum (1 st Choice)
Nov 2024	1549
Nov 2023	1492

Forum strategy Day

12 December 2024

Plans for 2025

Future forum work:

Suggested conference for student nurses on careers in Neuroscience Nursing next year. This would fit with our agenda to try and up our student nurse recruitment and fits with NHS
